

Hi, my name is Taylor. I am a third grade straight A student and I am nine years old and go to Ward Highlands Elem.

I am very concerned about the proposed four day week. I am concerned for four reasons. The first reason being I have two working parents and they can't take off every Monday to be at home with me allday. The second reason is because I am in a program at my school called "Flame" also known as "gifted" and the third graders go on Monday every week and I am concerned the third graders won't have gifted because I heard Monday is getting cut. The third reason being the way it is now we third graders don't have recess if school got longer we would have to work longer without recess. Last but not

least, my forth and final reason is that kids like me are the next generation we need to be educated because when we get to be the President or the Governor if we are not educated we will make bad decisions.

Thank you for your time.

Love,  
Taylor
